Thanks Sean, we'll be sure to redact those items. I really appreciate the quick response.

Have a good one,

Jim Bennett, P.G. #7707, CHG#854  
Groundwater Geologist

Yes, the Well Datasheet and the Well 8 PA Engineering Report have locational information for critical facilities (well locations), which we would redact for a Public Records Act Request. I didn't redact anything since you work for a public agency and already have information on well locations. Also, we don't typically give Well Datasheets to public but they could technically challenge us on that. The other two documents don't have any concerns.

Thanks  
Sean

Hi Sean,

Is any of the attached information confidential? We are posting all our correspondence in our Administrative Record and I wanted to make sure before posting.

Thanks,

Jim Bennett, P.G. #7707, CHG#854  
Groundwater Geologist

No datasheet for Well 6 on e-file. Well 4&5's attached.

Permit Amendment for Well 8 as standby and inactivation of Well 6 attached. We required them to destroy Well 6 within 12 months. Subsequently, they requested to convert to Ag well in attached ltr. We approved the request as part of our inspection letter (page 2 & 3, look at condition #4 on page 3).

Best Regards,

**Sean**
